

Example (Quick) → +  Weather +  Beverage +  Not Available +  At Home +  Give a Name & a Story = Choose something that doesn't exist, give it a name, a story, and imagine it's real!									
EXPERIMENT	INGREDIENT				TRANSFORMATION	PLACE / CONTEXT			EXECUTION
01  DISCOVER THE ANOMALY Choose something that doesn't belong.	 Vegetable  Beverage  Spice  Sauce  Fruit / Nut				 - From the future - If it were alive - If never created - Without texture - Unknown size	 - In a restaurant - At home - On an airplane - On the street - In space			 - Create a completely new dish - Give it a name and a story - Describe it in detail - Imagine it looks real - Make it taste real
02  CLASSIFY THE FOOD Classify food in an unusual way.	 Main dish  Side dish  Beverage  Dessert  Flavor				- In large quantity - In small quantity - In one bite - With one ingredient - Without cooking	- From grandma's kitchen - For kids - From another country - From your order - From leftovers			- Choose 3 different ways - Set your own rules - Pick the best one - Give it a name - Describe the experience
03  COMPRESS THE DATA Summarize everything in one simple thing.	 Complete meal  One ingredient  Full menu  A whole cuisine  Food experience				- In one word - In one color - In one symbol - In one emoji - In one sound	- A new restaurant - New menu - New dish - New ingredient - New flavor			- Summarize in one line - Make it easy to remember - Share it simply - Make it powerful - Make it inspiring
04  FIND THE CONNECTION Find the hidden link between elements.	 Ingredient  Dish  Cuisine  Flavor  Food experience				- With something else - Why it exists - What it affects - What happens if missing - What connects it	- In nature - In the body - In history - In emotion - In another culture			- Write the connection - Explain why it matters - What happens without it? - Give a real example - Share your insight
05  TEST THE HYPOTHESIS Challenge an idea and test it.	 Before you try it  In real life  Compare results  Record what learned  Improve it				- Set a hypothesis - Test in real conditions - Compare & analyze - Record the result - Draw a conclusion	- At home - In a restaurant - With friends - At an event - Online			- Try it in a new way - Challenge the assumption - Measure the result - Learn something new - Share what you learned
